

# COALESCENCE™

INNOVATIVE INGREDIENTS & DISTINCTIVE FLAVOR SYSTEMS

## Flavorescence AP35 System

The Flavorescence All-Purpose (AP) 35 System is a natural flavor-boost solution that offers exceptional sensory results in meeting your customers' demand for lower-sodium foods that do not sacrifice taste or mouth-feel.

The Flavorescence AP 35 solution fills the gaps in your flavor profile by blending together complex flavors into a well-rounded and pleasant sensory experience while deliberately supplying a front-middle-end flavor boost.

Flavorescence AP35 System provides ease-of-use technology in liquid applications such as soups, sauces, and dressings to enhance the taste by:

- Reducing sodium content in product formulations by up to 35%
- Using as a one-to-one replacement for salt in the formulation
- Intensifying the flavor notes in existing reduced-sodium products without increasing sodium content
- Delivering versatility and the same flavor impact of salt in an assortment of food applications

Coalescence has developed the innovative AP35 System as a flavor replacement for salt that decreases the sodium content of your application without stripping the taste. This exclusive yeast extract solution was formulated to help the food industry replace costly ingredients without compromising product quality and sensory appeal. Our system also magnifies the impact of flavors, seasoning blends and potentiators (i.e. I+G), which open up the opportunities for cleaner labels.

### VALUE ADDED SOLUTIONS:

- A natural yeast extract
- Contains no HVP (Hydrogenated Vegetable Protein), MSG (Monosodium Glutamate)
- A clean flavor with no negative flavor attributes, no metallic or bitter after taste
- A proprietary yeast extract with no declared allergens
- Can be effortlessly formulated to lift the flavor punch and fill the taste gap at the front, middle, or end of the mouth-feel experience
- Easy-to-handle and process friendly – freeze-thaw stable and bake stable

### WHY NOT TRY FLAVORESCENCE AP35 IN...?

- condiments and dressings
- seasonings and sauces
- soups and broths
- side dishes

### INGREDIENT STATEMENT:

Natural Flavor (Salt, Maltodextrin, Yeast Extract)

### PACKAGING:

30 lb. or 40 lb. Bag-in-a-Box or as directed by the customer
