INNOVATIVE INGREDIENTS & DISTINCTIVE FLAVOR SYSTEMS

## Flavorescence TA40 System

The Flavorescence TA 40 System is a natural flavor-boost solution that offers exceptional sensory results in meeting your customers' demand for lower-sodium foods that do not sacrifice taste or mouth-feel.

Flavorescence TA 40 provides a flavor enhancement and sodium reduction solution by deliberately supplying a *front-flavor* boost, mimicking the impact of salt.

The Flavorescence TA40 System delivers ease-of-use technology in dry applications for significant sodium reduction and an exceptional premium taste profile.

This versatile system also:

- Reduces the sodium content in product formulations by up to 40%
- Is a one-to-one replacement for salt in formulations
- Intensifies the flavor notes in existing reduced-sodium products without increasing sodium content
- Delivers the same flavor impact of salt in an assortment of food applications

Coalescence has developed the innovative Flavorescence TA 40 System to help the food industry replace costly ingredients without compromising product quality and sensory appeal. A scientifically-produced formulation, this solution is a true flavor replacement for salt that decreases the sodium content without stripping the taste.

### VALUE ADDED SOLUTIONS:

- A natural yeast extract
- Contains no HVP (Hydrogenated Vegetable Protein), MSG (Monosodium Glutamate)
- A clean flavor with no negative flavor attributes, no metallic or bitter after taste
- A proprietary yeast extract with no declared allergens
- Can be effortlessly formulated to lift the flavor punch and fill the taste gap specifically at the front of the mouth-feel experience
- Easy-to-handle and process friendly – freeze-thaw stable and bake stable

### WHY NOT TRY FLAVORESCENCE TA40 IN...?

- Seasonings blends
- Snacks (i.e. tortilla, potato chips, etc.)

### INGREDIENT STATEMENT:

- Natural Flavor (Salt, Maltodextrin, Yeast Extract)

### PACKAGING:

- 30 lb. or 40 lb. Bag-in-a-Box or as directed by the customer
